PUGET SOUND  
BEEKEEPERS  
ASSOCIATION

# SWARM LIST

The Puget Sound Beekeepers Association will capture and collect honeybee swarms

If you get a swarm call.....

The listed beekeepers are members of the Puget Sound Beekeepers Association and are willing to pick up swarms of **HONEY BEES** at no charge if the bees are a reasonable distance from the beekeeper and the bees are not embedded in a structure such as walls, chimneys, etc. All efforts should be made to report the swarms and have them picked up **as soon as possible** before they move into an undesirable place.

## Area Zones:

### A Seattle North

### B Seattle South

### C South Renton/ Kent

### D Eastside South

### E Eastside North

## 2011 SWARM LIST

If you have any earlier swarm lists around, make sure you throw them away as the beekeepers on the swarm list change every year. Also, please distribute this up-to-date 2011 list to all divisions, departments, etc. that can make use of it.

### Procedure....

Give the phone number of two to four beekeepers in the appropriate Area Zone closest to the location of the call. Leave a message if the beekeeper is not at home.

All beekeepers on this list will remove Honeybee swarms.

If the call is about removal of yellow jackets, wasps, bumble bees or hornets the beekeeper may be able to suggest someone who can remove them. Almost all of the volunteers on this list are interested in removing honey bee swarms only.
